ITEM	DESCRIPTION	QUANTITY	AMOUNT
1.	Managed hosting with dedicated multi-core CPUs, isolated RAM, NVMe SSD storage, secure firewall & DDoS protection, automated patching, bandwidth scaling, and 24/7 monitoring with a 99.9% uptime SLA.	1	12,800

DESCRIPTION

Provision of a quarterly dedicated server hosting and management package covering a four-month period. The service includes full server provisioning with guaranteed CPU and RAM resources, high-speed SSD/NVMe storage, secure firewall and DDoS protection, and scalable bandwidth. We will handle complete setup, operating system installation, network configuration, and performance tuning to ensure fast, reliable operation. Continuous 24/7 monitoring, routine security updates, and responsive technical support are provided to maintain uptime and data integrity throughout the contract.
